# 1 3D CAD Design

All our balustrade systems are designed in house prior to manufacture giving you peace of mind to ensure your final drawings and measurements are correct. Only once you have checked and approved your drawings would we commence production.

# 2 Inhouse manufacturing

All glass and metal processing take place at our 70,000 square foot premises located in Lincolnshire. This helps reduce our costs which in turn helps save you money. We control every aspect of your order from initial enquiry through to design and manufacture and finally dispatch.

# 3 Short lead times

Our large manufacturing and stock holding facilities allow us to offer short lead times for even the most complex or large projects. Dependent on the quantity and glass type lead times vary from 10 - 20 working days.

# 4 Safety and quality

All our glass is certified with the appropriate CE process of manufacture certifications provided by independent auditors CEN SOLUTIONS LTD (EN:12150) & (EN:14449). Our channel & ONLEVEL has the British Standard BS kite mark KM694284. All our welders are coded and audited to BS EN ISO 15613:2004 by independent auditors INTERTEK. EN1090 Steel fabricatin certified although this is not applicable to balustrades.

## SUPPORTING UK MANUFACTURING

If “we” cannot make it “we” do not sell it. No outsourcing means we have total control of the products we offer and the subsequent lead times.

Based in the seaside town of Mablethorpe in Lincolnshire we manufacture out of a 70,000 sq ft factory with one of the widest arrays of processing capabilities in the UK.

We can process mirror, glass, wood, acrylic and vacuum form as well create large format 3D prints all from the same manufacturing location.

**If you want it done right first time make it made2measure!**

## LARGE LIBRARY OF HOW TO GUIDES AND ONLINE ADVICE

Correct information and good guidance is critical especially for those buying items for the first time. Our exhaustive list of [/how-to-guides/](#) cover all applications and throughout the site you will see **LEARN MORE** which provides clear advice and guidance to help your decision making.

## SPECIALISTS FOR DOMESTIC AS WELL AS COMMERCIAL CLIENTS

Whether you spend £30,000 a month or purchase only once we have dedicated our developments over the years to ensure we can provide the highest levels of customer service and quality to customers no matter their size or whether domestic or commercial clients.
